### "8xY- Eight Y generation artists in ScenaX gallery"

8 young artists, born in late 80's, connected with origin from Warmia-Masuria district in Poland, graduated of High school of Art in Olsztyn, will expose in Scena X gallery. It is first time- together on native art stage. Exhibition is an open-space event, what gives the opportunity for artists to close contact with recipients, establishing a dialogue, debate, and it allows them to further creation of art action in local native land.

Joins and at the same time divides us a fact that each of us has left our native land in order to education, and everybody graduated various Universities, Academies, or faculties of art in all area of Poland. Development path of some of us is associated with moving from different schools, faculties and ateliers. Many of us studied abroad and worked with great artists. Everyone has creating own way of expression through various media and creative attitude. We have our first art successes, exhibitions, awards, completed projects.

Join and divide us also "places", or rather fact that we are scattered around different places in Poland and in the world. We are looking for own place on the world map as like in the art world. About art, places, creativity, locality and globality, contemporaneity, past and future, in context of Warmia-Masuria country, East Prussia will talk and discuss in Scena X gallery. All welcome!
